

DeVilbiss SRiPro™ with NEW 3-oz. Cup Offers Extreme Flexibility and Best in Class Productivity

The new DeVilbiss SRiPro / 3-oz. cup combo provides more fluid flow than competitive disposable alternatives. Painters can now achieve professional results no matter where they spray.

SRiPro™ Spot Repair Gun (SRIPRO-635G-10) Now Includes NEW 3-oz. Cup

- Perfect for spraying both inside and outside the spray booth (Check local rules before spraying outside the spray booth)
 - Superb atomization with low overspray and low air requirements (3 – 5 CFM)
 - Waterborne compatible
 - Includes
 - New! 3-oz. rigid plastic cup and adapter
 - DeVilbiss DeKups® disposable 9-oz. cup starter set
 - 1.0 mm fluid tip (1.2 mm tip available separately for spraying high build primers)
 - Two air caps: HS1 HVLP and TS1 High Efficiency
- Order SRI-70 adapter and three-pack of cups (GFC-430-K3) to convert SRI series guns already in use.

3-oz. cup (GFC-430-K3) Now Available for Separate Purchase

- Complies with EPA Rule 40 where it applies. (Check local rules before spraying outside an enclosed, drafted spray booth)
- Low overspray and better quality finish
 - Consistent fluid flow and spray pattern
 - Up to 16% more fluid flow than competitive disposable cups
- Economical --- reusable, and easy-to-clean
- Three cups and lids per package
- SRI adapter sold separately (SRI-70)
