TRIM BLACK PAINT GLOSS / FLAT / SEMI

Trim paint is formulated using an acrylic resin that resists fading from ultraviolet light and degradation from chemicals. Spray like a professional without the equipment, prep time, cleanup, or waste. Several light coats produce a better finish than one heavy coat. A heavy coat applied over an enamel may cause lifting. Bare surfaces or rusted metal surfaces should first be primed with the 5 STAR ADVANTAGE #3525 Sandable Primer.

SUGGESTED USES:

- + Body Panels & Metal Structures
- + Engine & Aviation Parts
- + Heavy Machinery

SPECIAL FEATURES:

- + Large Fan Spray Head
- + Dry to the touch in 20 mins.
- + Resists fading from UV light & chemicals
