

System 20 Degreaser

ANTI – SILCONE DEGREASER

Description

SYSTEM 20 DEGREASERS are a carefully formulated to provide a powerful, aggressive degreasing action that avoids any attack on existing paint films.

The use of SYSTEM 20 DEGREASERS is vital before undertaking any repair operation in order to remove contaminants such as wax, grease or silicones.

Instructions

Two speeds of degreaser are provided the fast degreaser is for localised panel repairs and the slow is for larger repairs and resprays.

Apply generously to the area to be coated using a clean, lint-free cloth.

While the panel remains wet, wipe with a clean dry cloth until the degreaser has been completely removed.

Health and Safety Statement

FOR PROFESSIONAL USE ONLY. Read full instructions before use.
IMPORTANT: This product contains hazardous materials and therefore appropriate personal protective equipment should always be used. Please refer to the label and consult the material safety data sheet for full handling instructions and personal protection information. These are available via your local stockist or via the U-POL website at WWW.U-POL.COM. U-POL disclaim any liability where the user does not wear the recommended personal protective equipment

Important

SYSTEM 20 DEGREASER is designed for use over bare metal and existing paint surfaces.
